

VINCOMM SIGNS RESELLER AGREEMENT WITH INDIANA TELEPHONE

FOR IMMEDIATE RELEASE

SAN DIEGO, FEB 23, 2007 (BUSINESS WIRE)—Vinculum Communications, Inc., (Vincomm), a leading provider of Voice over Internet Protocol (VoIP), delivering reliable, cost-effective, integrated voice and data services to small and medium businesses, announces reseller relationship with Indiana Telephone to represent Vintalk hosted IP PBX service to new and existing clientele.

Indiana Telephone Company (ITC) is one of the largest providers of alternative local telecommunications services in the country, providing businesses with high quality voice, data, and video services. Their primary base of operations is in Indianapolis, Indiana, with local line access in 37 cities nationwide.

President and founder of ITC Bill Ogle stated “operating as an interconnect in the Indianapolis area for the past 25 years, we have seen many new technological breakthroughs in the phone industry. From my view point, the Vintalk business internet phone service not only offers my customers best in breed services, it does the same for my bottom line and this is clearly the future of Indiana Telephone Company.”

The reseller agreement provides Indiana Telephone Company unlimited access to self-provision hosted IP PBX services throughout the tri-state region of Indiana, Illinois and Ohio. Up and until now, ITC has been traditional telephone system interconnect selling, installing and servicing Samsung PBX phone systems. ITC has built their business by offering an unparalleled service guarantee to beat any competitor's line price for service overall by at least 10% per month (according to a viable quote received within 30 days), or they will sell the service to the customer at the lower price and provide one free month of the service for each year you remain our customer, up to 5 years.

About Vinculum

Vinculum Communications is a leading provider of Voice over Internet Protocol (VoIP), delivering reliable, cost-effective, integrated voice and data services to small and medium businesses. At its heart a telecomm company, Vinculum (Latin for “bond”) leveraged an extensive VoIP network—built to serve domestic and international wholesale communications carriers—with its proprietary Vintalk™ hosted call platform, bringing a wealth of scalable features, flexible packages and low-cost long-distance calling to retail markets worldwide. Vinculum’s rapidly-expanding global footprint and software-driven infrastructure sets the standard for building sound connections. For more information on Vinculum and Vintalk™, visit www.vincomm.net.

About Indiana Telephone Company

ITC offers quality, reliability, and flexibility, which businesses need in order to be competitive in today’s economy. Their network and integrated systems offer the best technology available, with easy upgrades accessible for the future. By strategically aligning with current service providers, ITC is not hampered by the constraints of older network systems that find it cost prohibitive to provide such state-of-the-art services. Indiana Telephone Co., Inc. is clearly the best solution for the sophisticated telecommunications user. For more information, visit www.indianatelephone.com
